CONFIDENTIAL SELF AND PEER EVALUATION REPORT

FINAL PROJECT

NAME: Tutorial Group:

Based on the overall input towards the project, considering attendance, commitment, use of initiative, pro-activeness, cooperation, planning, discussions, reliability, meeting deadlines, undertaking a fair share of the workload, contribution of time, punctuality, effort and dedication, I would estimate each of our contributions as a percentage of the whole, to be as follows:

(Note: a team of 4 members who EACH make an EQUAL contribution would have its members contributing 25% each; that is 100% divided by 4 = 25%. Thus, a team of 3 members would have its members contributing 33.33% each)
